

## Focused on the Future

Last month we celebrated our anniversary of the launch of Ta Ethne. We had a wonderful time looking back over the past year and marveling over the blessings of God on our ministry. Now, we are looking towards the future, watching in anticipation of how God is going to continue using us.

What new invitations will be extended to us? What new resources will be completed? What people will be impacted by our ministries? How many lives will we touch?

It is exciting to serve a God who is constantly at work across the globe, a God who invites us to join Him as His Spirit moves among people. We are so excited about what the future will hold and how God will enable us to better serve Him.

Will you pray about partnering with us to continue the ministry of discipling church leaders across the world?

### Ideas for the Future

Instead of us writing and developing various resources that we might be excited about and see them lie around unused, we would love to have you tell us what type of training resources would benefit your ministry the most.

We will then work on developing those resources and making them available to you. Do you need customized discipleship materials, teacher training or leadership workshops? Do you need biblical answers to particular cults, religions or worldviews you are encountering? Are you planning to plant new churches, resurrect dying ones or encouraging struggling congregations?

Do you need help as a pastor in shepherding? Do you need help with counseling ministries, planning large events or developing small groups? These are just some of the questions faced by church leaders. Since each body of believers is unique, each sphere of influence defined differently and every country and people group very diverse from others, it makes sense to customize training that will be both relevant and reproducible, timely and desired.
